Shaded rows are months in which cumulative consumption exceeded the 500-credit balance. The active-users total is de-duplicated across the period, so it does not equal the column sum.

3 · User base

93 distinct EFU users generated KPIs across 98 active days. Adoption is broad but consumption is concentrated: the ten heaviest users account for 46.4% of all credits.

BASIS OF PREPARATION	
Credit = one KPI-generation request. 852 requests were submitted; 838 returned KPIs and 14 returned none. Utilisation is stated on all 852 requests; on successful requests only it is 838 (167.6%). Credits purchased (500) is a contract figure supplied separately; it does not form part of the platform's usage records.	Users are distinct email addresses recorded against the account. All 852 requests sit under the EFU Life account on the efulife.com domain. - Figures are drawn from KPI Generator usage records for the EFU Life account and cover 30 Sep 2025 to 21 Jul 2026. KPI-level detail is unavailable for Sep–Oct 2025, so those two months show 8 requests with no KPI breakdown.
